1. Introduction

The software is used for field technical statistics of basketball game. The assistant coaches can make systematic analysis and evaluation on the whole team and individual through the recording of various events during the match and the establishment of detailed technical statistics. It can be used for FIBA, NBA and so on. Plug in the USB dog when use the software.

2. Create a new match

Open the software and enter the "BASKETBALL STATS". Click "New" button to create a new match and fill in the info of the match.

Click the icon  to enter the "Season Configure" to redefine the rules of the match.

3. Open the match

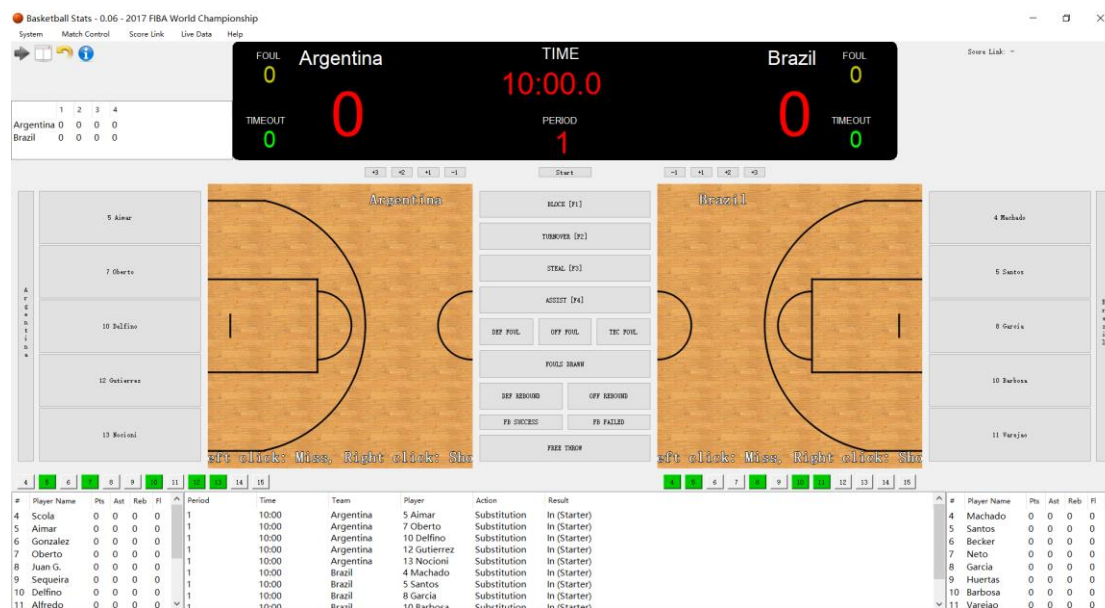

Choose the season and the teams, then click "Open" button.

After enter the interface, there are some tips. Click any button to enter formal operation.

Right click each team starters' number, and the number will turn green. The preparation work is over.

4. Statistic operation

The statistic operation buttons are listed in the center of the interface. Click these buttons and then click the players on the left and right sides.

Notice: If the technical foul is not for the players, such as the coach committing the technical fouls. Click the “TEC FOUL” button and then click the players on the left and right sides.

5. Shooting statistics

Click the shooting point on either side of the screen.

Left Click: left click a shooting point and then according to the hints select a shooting player. The operation indicates that the player missed the shot at this point. The following hints that you choose a player indicate that this player has gotten the rebound. If there is no rebounding hints, continue to the next operation.

Right Click: right click a shooting point and then according to the hints select a shooting player. The operation indicates that the player got the shot at this point.

Middle Click: middle click a shooting point and then according to the hints select a shooting player. The operation indicates that the player has suffered a block at this point.

6. Main operation

(1) Substitution operation:

Right click substituted player number you need, icon will turn orange from green. And then right click a white player number to complete substitution operation.

(2) Time and score operation:

The buttons "+3 +2 +1 -1" are used to change scores. Generally they are used when the scoring player cannot be determined.

Notice: It is not recommendable to use these buttons to change the score.

(3) Modifying operation

The events are listed under the interface. Double click the event to modify the corresponding time, teams, players and result, such as three points being modified to two points.

Period	Time	Team	Player	Action	Result
1	10:00			Start Period	-
1	10:00	Brazil	4 Machado	Substitution	In (Starter)
1	10:00	Argentina		Shot	Three Point Miss
1	10:00	Brazil		Shot	Three Point Made
1	10:00	Argentina		Shot	Three Point Miss
1	10:00	Argentina		Shot	Three Point Made
1	10:00	Brazil		Shot	Three Point Miss

7. Other operation
